

5-Axis Dental Mill

DWX-52D

Get in shape. Think smart. Mill in-house.

Introducing the DWX-52D 5-Axis Dental Mill for Maximum Efficiency and Precision

The DWX-52D 5-axis dental mill offers a highly reliable, precise, easy-to-use and affordable solution. Produce a wide range of restorations, including crowns, copings, bridges, inlays and onlays, veneers, abutments, implant bars, screw-retained crowns, digital dentures, models, surgical guides and bite splints. Includes upgraded disc handling, increased material compatibility, improved tool management and other enhanced capabilities to make your lab more efficient and productive.

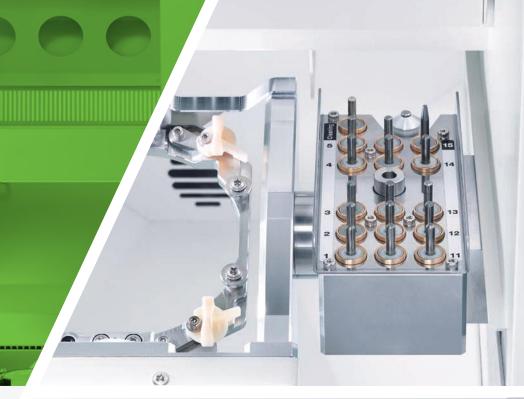

DWX-52D

New Clamping System

A new snap-on clamp system with six included adapters for 98.5mm discs offers fast and secure set-up of zirconia, wax, PMMA, gypsum, PEEK, glass fibre-reinforced resin, composite resin and CoCr sinter metal materials.

Disc material adapters maintain the original point-of-origin when milling reinserted discs. Nest your restorations even tighter to maximise material usage and reduce unit costs. A pin-type material adapter enables setting up and milling of eight pin-type blocks consecutively.

15-Station Automatic Tool Changer (ATC)

The DWX-52D provides continuous, unattended milling with a 15-station Automatic Tool Changer (ATC) which has a dedicated slot for an included cleaning tool. Load the cleaning tool into the ATC and set it up to automatically sweep away zirconia powder and other material dust for a cleaner milling surface.

User-friendly Design

A user-friendly Virtual Machine Panel (VPanel) enables convenient production and device monitoring from your computer. Email notifications keep you informed of operational status, including milling and maintenance completion, or any errors in order to minimise down time.

Adapter Rack for Increased Efficiency Six adapters for 98.5mm material discs are included as standard with the DWX-52D, allowing you to queue up multiple milling jobs for efficient job management.

Precision 5-Axis Milling

The DWX-52D simultaneously rotates and tilts discs for deep undercuts and milling large arch applications and other full-mouth restorations with ease.

Intelligent Tool Control

VPanel operation includes an Intelligent Tool Control function that intuitively swaps out tools from their stocker position when they have reached their user-defined lifespan without needing to pause production.

Comprehensive Support Network

In addition to online or telephone assistance, DGSHAPE also offers educational seminars aimed at increasing customers' familiarity and confidence with products and services. Service engineers are also available worldwide to assist customers with any questions they may have.

DWX-52D

| Specifications | | | | | |
|--|--|--|--|---|--|
| Cuttable material | | Zirconia, Wax, PMMA, C | omposite resin, PEEK, Gyps | sum, Glass fibre re-inforced resin, CoCr sinter metal | |
| Loadable workpiece | Disc-type (with step) | | 3.88 in.) (diameter), Heigh .74 in.) (diameter), Height r | | |
| shape | Pin-type | Pin diameter: 6 mm (0.24 in.) | | | |
| Operating speed | | XYZ axis: 6 to 1800 mm/min. (0.24 to 70.9 in./min.) | | | |
| Spindle motor | | Brushless DC Motor | | | |
| Spindle rotating speed | | 6000 to 30000 rpm | | | |
| Rotary axis travel angle | | A: ±360°, B: ±30° | | | |
| Number of burs housed | | 15 | | | |
| Attachable bur | | Shank diameter: 4 mm, Length: 40 to 55 mm (1.57 to 2.17 in.) | | | |
| Compatible compressed air | | 0.02 to 0.2 Mpa | | | |
| Interface | | USB | | | |
| Power requirements | | AC 100 V to 240 V ±10 %, 50/60 Hz (overvoltage category II, IEC60664-1), 2.0 A | | | |
| Power consumption | | Approx. 200 W | | | |
| 0 | During operation | 70 dB (A) or less (when not cutting) | | | |
| Operating noise | During standby | 45 dB (A) or less | | | |
| External dimensions | | 495 (W) × 660 (D) × 600 (H) mm (19.5 × 26 × 23.6 in.) (additional 150 mm depth required for extraction pipe) | | | |
| Weight | | 67 kg (147.7 lb) | | | |
| Installation environment | | Indoor use, Altitude: Up to 2000 m (6562 ft), Temperature: 5 to 40 °C (41 to 104 °F), Humidity: 35 to 80 % (no condensation), Ambient pollution degree: 2 (as specified by IEC 60664-1), Short-term temporary overvoltage: 1440 V, Long-term temporary overvoltage: 490 V | | | |
| Included items | | Power cable, USB cable, Manuals, DGSHAPE Software Package CD, Detection pin, Automatic correction jig, Material Adapter, Material adapter rack, Pin-type material adapter, Hexagonal driver, Spanner (for clamp), Spanner (for spindle), Milling bur holders, Milling bur positioner, Cleaning tool, Option adapter ID labels, Dust collection hoses, Dust collection hose adapter, Regulator, Cleaning brush, etc | | | |

The DGSHAPE Promise

DGSHAPE is the name of the new business that inherited 30 years of innovative 3D technologies of Roland DG from which it was spun off. The DGSHAPE core mission - "make innovation, make life better" - is focused on delivering digital technologies that bring ideas to life, revolutionise business processes, and shape a better future. Our objective is to fuse human creativity with digital workflows to provide exceptional value across multiple endeavours, from individual craftsmanship to manufacturing, healthcare and beyond.

DGSHAPE reserves the right to make changes in specifications, materials or accessories without notice. Actual device output may vary. For optimum output quality, periodic maintenance to critical components may be required. Please contact your DGSHAPE dealer for details. No guarantee or warranty is implied other than that expressly stated. DGSHAPE shall not be liable for any incidental or consequential damages, whether foreseeable or not, caused by defects in such products. All trademarks are the property of their respective owners.
